PHYSICIAN REFERRAL/ORDER

POLICY:

• The physician will make a referral to Cardiac Rehab by the following methods:
  • Ordering the referral while patient is in the hospital
  • Completing an "Outpatient Physician Order Form"
  • Completing an "Outpatient Physicians Orders – Outpatient Services" Form
  • Calling the Cardiopulmonary Rehabilitation Department with a verbal order; which will need to be followed by a "Written Order".

The Cardiac Rehab RN or EP will get the following information from the physician:

• Latest History and physical
• Most recent EKG
• Most recent CXR (if available)
• Most recent pertinent lab results
• Results of the Graded Exercise Test (if available)
• Reports of any interventions done by the physician
